

COVID-19 EMERGENCY NOTIFICATION SOLUTION

Built by:

AMPRON

System is intended to raise the awareness amongst population. It consists of full color LED message boards and central software for control.

USE CASE

The target group is the people at public locations. Government, city or municipality may share the emergency information or other notifications to the general public.

CONTROL

The simplest way is to have Windows OS based software to display static, scrolling or moving messages.

Automated way is to have through our proprietary communication protocol the input from third party software or source.

DISPLAY HARDWARE

We use only high-quality verified hardware in our production. Display units are intended for use in harsh outdoor environmental conditions of Nordic Countries and 24/7 operation.

Our Compact model DS-960x320 P8.

Other models and sizes are available as per request.

SAMPLE CONTENT

Following is just a few examples of the content, you may use with our full color LED message boards. Content may be as static, scrolling or moving text. In addition you may use moving gif's, pictures or videos.

COVID-19
DEATHS: 420

HANDS!

COVID-19
Deaths today: 304

TECHNICAL SPECIFICATIONS

Pixel Pitch	P8
Resolution	120x40 pixels
Brightness	6500 nits
Viewing angle	H:140 V:120
Color	16 bit/color
Interface port	LAN CAT 5/5e/6
Operation	24/7
Operating Temperature	-35 ° C ... +50
Power Consumption max.	40 W
Serviceability	Front and back
Certification	CE, RoHS
Warranty	1 year

PROJECT STAGES

Milestones and deliverables

- S1 FINAL DESIGN DOCUMENT**
Ampron will prepare the customer specific technical design document in cooperation with the Customer to the level sufficient for manufacturing
- S2 PRODUCTION**
Ampron will manufacture the solution
- S3 FACTORY ACCEPTANCE**
Ampron will perform Factory Acceptance Tests at its premises prior to packaging and shipment
- S4 INSTALLATION**
Customer will install the products
- S5 CELEBRATION**
Ampron and Customer will celebrate the success
